Spend time actively with loved ones

INGROUND TRAMPOLINES CATALOGUE

www.jumpro.pl

PURPOSE

Our trampolines are designed for outdoor use as playgrounds, schools, kindergartens and other public places as leisure centers, parks, hotels. You can use them as a single device or create a complex of trampoline paths or trampoline park. The trampolines are designed for children aged over 4, youth and adults as well. Maximum user's weight is 150 kg.

FUN AND HEALTH

Jumping is a great fun and practice upper and lower muscle parts. It has got a positive effect on blood circulation. Stay fit and active together with your loved ones.

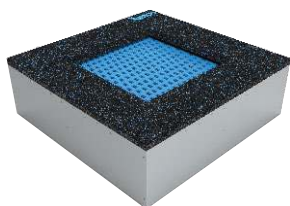

SAFETY

Safety is our priority. The trampolines are made on the basis of standard EN 1176 and certified by TÜV SÜD. They have a non-slip jumping bed (even when wet). The cushioning surface (safety slab) is made of 4 mm EPDM/SBR for any unexpected falls is designed to cover the springs as well.

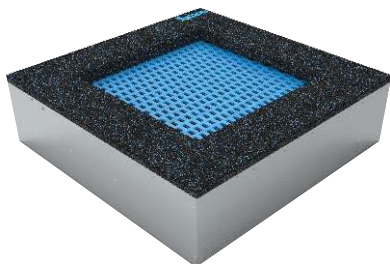

DURABILITY AND QUALITY

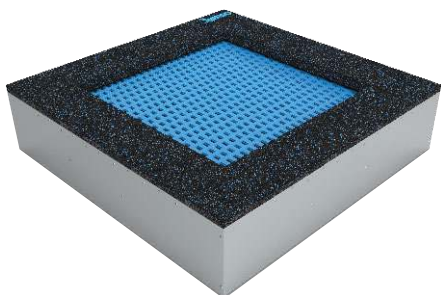

The trampoline is all year round use device. The jumping bed and the safety slab is UV resistant and weather resistant. The covering material is made of galvanized steel, 4 mm thick. Springs are made of 3.5 mm galvanized wire
